

Bonus Lab: Publish Webpages via GitHub

1. Please revise “resume-example.html” to build your online resume.
 - Please (at least) show your name on the page.
 - The page should include one or more pictures.
 - You can use your own CSS and HTML structure, but it should be “like a resume”.
2. Please publish your resume webpage to GitHub, for example, <https://soselab2020.github.io/web/resume-example.html>. (You should have a GitHub account)
3. Please submit the URL to TronClass.
